philosophy: we came into this world with all the right pieces. we are full of joy, laughter and wonderment. we are this living color. we seek smoky experiences. we spin a pollen, make the wind our friend by flying lines. we let our wayward pins, and celebrate the flames on our lovely bodies making secret wishes that we know will come true. there is no greater joy than to be fresh-water clean from the outside in and the inside out. we are not someone that aspire to the an instant renewal, renaissance and revival we feel when we wash and clean away stress and commotion to prepare ourselves for our next, new in-life experience. cleanliness gives us wings to fly.
