

RENEW YOUR SKIN THIS SPRING WITH TAMMY FENDER HOLISTIC SKIN CARE

In need of a new organic beauty line that is truly clean and will work wonders for your skin? If so, you need to check out [Tammy Fender Skin Care](#) – a holistic and organic line that creates 100% botanical formulas that are crafted to enrich, purify and protect the skin. They are committed to helping clients experience beauty and wellness that radiates from within with ultra-nourishing and all-natural blends that work on the cellular level.

The [Roman Chamomile Tonic](#) (\$60; 6oz) is a skin calming remedy that is used as a treatment of inflammation and irritation of the skin. The healing and anti-inflammatory properties of pure Roman Chamomile gently soothe and hydrate dry, sensitive and irritated skins, while promoting a gentle circulation of chi (energy). It is mostly beneficial for sensitive, red or dry skin. We recommend using this during your Spring/Summer skin care routine as Roman Chamomile is extremely healing and excellent for tissue regeneration, prevention of moisture loss, calming sun burns and useful for tired eyes and puffiness.

The **Capillary Strengthening Blend** (\$70; 10z) is a reparative oil that delivers the highest content of essential fatty acids, vital nutrients and bioflavonoids necessary to repair and rejuvenate the skin's delicate tissue at the deepest level. The healing properties of chamomile, neroli, rose and carrot seed strengthen capillaries, increase circulation and stimulate the regeneration of healthy new skin cells.
